DETAILED ACTION

Claims 1-11 are currently pending.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-3, drawn to a chimeric polypeptide comprising an MHC class I-binding antigenic peptide, a human .beta.2 microglobulin and a human MHC class I heavy chain, classified in class 530, subclass 350.
 - II. Claims 4-11, drawn to a nucleic acid encoding a chimeric polypeptide comprising an MHC class I-binding antigenic peptide, a human .beta.2 microglobulin and a human MHC class I heavy chain and a transformed cell comprising same, classified in class 536, subclass 23.1 and class 435, subclass 325.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the chimeric polypeptide of Group I can be made by chemical means without regard to the nucleic acid or transformed cell of Group II.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
